DETAILED ACTION

A telephone call was made to Anthony Diehl on 2/6/2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

A: Fluid Delivery Device

AI: Embodiment in Figure 1a

AII: Embodiment in Figure 2

AIII: Embodiment in Figure 3

AIV: Embodiment in Figure 4

AV: Embodiment in Figure 6

AVI: Embodiment in Figure 9

AVII: Embodiment in Figure 10

AVIII: Embodiment in Figure 12a

AIX: Embodiment in Figure 13

Art Unit: 3767

B: Remote Control

BI: Embodiment in Figure 1b

BII: Embodiment in Figure 5

BIII: Embodiment in Figure 11

BIV: Embodiment in Figure 14b

C: Data Collection

CI: Embodiment in Figure 1c

CII: Embodiment in Figure 14c

D: System

DI: Embodiment in Figures 1a-c

DII: Embodiment in Figure 7

DIII: Embodiment in Figure 8

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species (XI or XII or XIII, etc.) from each of the 4 groups (A, B, C, D) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an

Art Unit: 3767

allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine N. Witczak whose telephone number is (571) 272-7179. The examiner can normally be reached on Monday through Friday, 8-5 EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kevin Sirmons can be reached on (571) 272-4965. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
